Detail-oriented QA Tester and Associate Developer with hands-on experience in manual testing, web application development, and software quality assurance. Skilled in creating and executing test cases, ensuring data accuracy, troubleshooting and resolving bugs, and working closely with cross-functional teams to deliver reliable, user-friendly software. Background includes developing and maintaining websites and web applications, adding new features, and enhancing existing functionality with C#, .NET, MVC, HTML, and CSS. Experienced in Agile environments and familiar with SDLC, regression testing, and post-release reviews. Comfortable using SQL, test management tools, and collaboration platforms to support smooth project delivery and high-quality software.

EXPERIENCE

01/2026 – Present
San Juan City,
Philippines

Thurston Software Solutions, Inc.

Associate Developer

- Wrote clean, efficient, and maintainable code following established coding standards and best practices.
- Collaborated with senior developers and cross-functional teams to implement new features and enhance functionalities, contributing to improved user experience.
- Assisted in the design, development, and maintenance of web applications based on project requirements.
- Participated in debugging and troubleshooting issues, resolving critical application performance problems.
- Supported testing activities, including unit testing and QA validation, ensuring high standards of software quality.
- Contributed to code reviews and incorporated feedback to improve overall code quality.
- Worked within an Agile development environment, attending daily stand-ups, sprint planning, and retrospectives.
- Assisted in maintaining documentation for technical processes, system updates, and development workflows.

09/2024 – 01/2026
San Juan City,
Philippines

Thurston Software Solutions, Inc.

Manual QA Tester

- Created manual test cases based on a deep understanding of system requirements and expected behavior.
- Performed testing across different scenarios to confirm the system works reliably under various conditions.
- Identified and documented bugs, then worked closely with developers to resolve issues efficiently.
- Carried out regression testing after fixes and participated in post-release checks within an Agile workflow.
- Documented testing procedures and results for team reference and alignment.
- Evaluated and improved testing processes, enhancing overall efficiency.
- Collaborated with teams to ensure quality assurance throughout development lifecycle.
- Applied programming knowledge and utilized test management tools to organize and track testing activities.

03/2024 – 06/2024
Manila City, Philippines

Cubed Technologies Solutions Phils. Inc.

Technical Associate Intern

- Supported IT team in deploying network infrastructures, ensuring reliable connectivity and system performance.
- Troubleshoot hardware and software issues for employees, enhancing user experience and operational efficiency.
- Tested and debugged software, offering feedback to developers for application performance improvement.
- Participated in the development and maintenance of internal databases and company website.

EDUCATION

04/2024 Metro Manila City	Universidad De Manila <i>Bachelor of Science: Information Technology</i> - Cum Laude with GWA of 98.00 - Consistent Dean's Lister (2020 - 2024)
01/2020 Metro Manila City	Arellano University <i>High School Diploma</i> Information and Communications Technology

SKILLS

Programming & Development - C#, .NET, ASP.NET MVC - HTML, CSS, JavaScript, Python (basic) - N-Layer Architecture, Fluxor, Extreme Programming - Code debugging and fixing Project Management & Methodologies - Agile / Scrum Methodologies - Workflow management (Azure DevOps, Monday.com)	Database & Data Management - SQL (data validation and query execution) - Local to PROD environment testing Tools Used - Visual Studio, GitHub - SQL Server Management Studio (SSMMS) - Google Sheets, Microsoft Office Suite - Azure DevOps, Monday.com - Postman (API Testing)	Testing & Quality Assurance - Manual Testing (UI/UX) - Test Case Design & Execution - Frontend & Backend Testing - Bug Tracking - API Testing (Postman - JSON, Bearer Token) Other Skills - Strong communication and documentation skills - Critical thinking and attention to detail
